Product Model: MA180

User's Manual

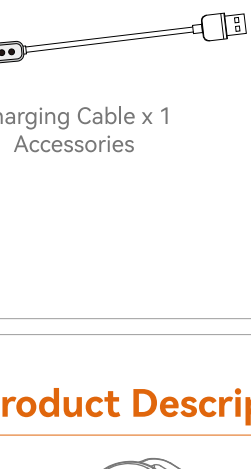

Product Specifications

Product Model: MA180
Product Name: SomaMotion Sport Band
Product Dimensions: 33.5x44.5x11.5 mm (Main)
Product Weight: 20 g
Battery Type: Lithium-ion rechargeable battery
Battery Capacity: 180 mAh
Rated Power: 0.05 W
Usage Time: 15 days of continuous wearing
Charging Method: DC 5V $\equiv$, Pogo PIN-USB Type-C
Charging Time: 2 hours
Bluetooth Version: Bluetooth LE 5.3
Data Storage: 64MB, local storage for 15 days / unlimited cloud storage
Waterproof Rating: WR30
Operating Temperature: -20°C – 50°C
Storage Temperature: -20°C – 60°C
Sensor Type: Heart rate & blood oxygen sensor (PPG)
Optical blood pressure sensor,
Accelerometer, Gyroscope,
Vibration motor, Light sensor

Product Description

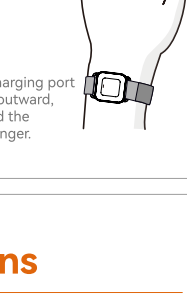

Heart Rate Indicator LED
Light Sensor

Heart rate and blood oxygen sensor

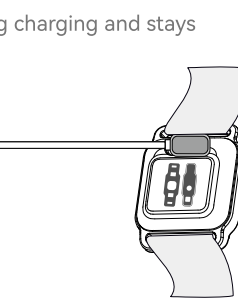

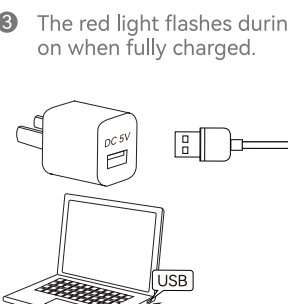

Charging Port
Blood Pressure Sensor
(For Blood Pressure Version)

- * Please download and install the APP. Before connecting the bracelet to the APP, shake the bracelet twice to enter pairing mode.
- * Attach the back of the bracelet host closely to the surface of your wrist, with the charging port facing outward toward your little finger.

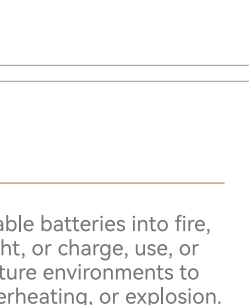

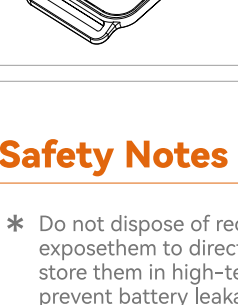

Product Usage

- 1 Secure the wristband strap to the notched and perforated section of the host device.
- 2 Keep the hook-and-loop fastener of the wristband facing upward.

- 3 Secure the wristband strap to the holed part of the main body.
- 4 Attach it to the wristband strap using the Velcro on the strap.

- Green LED: <120 bpm
- Blue LED: 121-135 bpm
- Orange LED: 126-150 bpm
- Purple LED: 151-165 bpm
- Red LED: >166 bpm

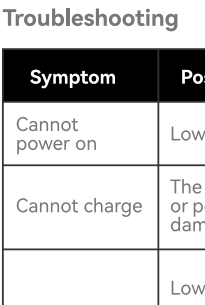

- 5 Press the back of the wristband host firmly against the surface of your wrist, with the charging port facing outward toward the little finger.
- 6 Once worn on the wrist, you can adjust the position of the bracelet main unit and the buckle.

The charging port faces outward, toward the little finger.

Charging Instructions

- 1 When the bracelet's battery is low, the red light will flash automatically 3 times in a row. Please charge it in a timely manner.
- 2 First connect the USB connector of the charging cable to a 5V power adapter or a computer USB port. Then attach the charging cable to the two charging contacts on the back of the bracelet main unit to start charging. The charging cable and the charging contacts of the bracelet main unit are equipped with positive/negative polarity magnetic attraction to prevent reverse connection.
- 3 The red light flashes during charging and stays on when fully charged.

Charging: Red light flashes
Full charged: Red light stays on

Safety Notes

- * Do not dispose of rechargeable batteries into fire, expose them to direct sunlight, or charge, use, or store them in high-temperature environments to prevent battery leakage, overheating, or explosion.
- * Before charging, check that the voltage of the power adapter matches the marked specification.
- * Do not modify, disassemble, or repair this product by yourself. Disconnect the power supply promptly after charging is complete.
- * Keep the charging port dry and clean during use to avoid dirt or impurities that may affect charging safety.
- * Use an adapter with an output voltage of 5V $\equiv$ to charge this product. A charger with an excessively high output voltage may cause danger or damage to the product.
- * Always use a power supply with a maximum output power of 15W under both normal and abnormal conditions. This product contains a non-removable battery. If the product malfunctions or the battery remains low, please consult a professional for assistance.

If the product is damaged due to collision or dropping, stop using it immediately.

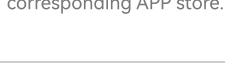

After-sales Service

Troubleshooting

Symptom	Possible causes	Solution
Cannot power on	Low battery	Charge the Bracelet
Cannot charge	The charging cable or power adapter is damaged.	Replace the power adapter
Cannot connect to the APP	Low battery	Charge the product
	Bluetooth is not turned on the phone.	Shake the bracelet twice to enter pairing mode.

- * One-year warranty commences from the date of receipt and confirmation of the bracelet unit.
- * Damage caused by accidents or human misuse is not covered by the warranty.
- * Accessories are not covered by the warranty.
